EUREKA–OUR TIME HAS COME!
WEB BUZZ 2008.08.18

The stars are finally aligning for a major bull-market run in long-term government bonds. Here they are:

1. **Europe is in recession.**
2. **Asia is not far behind.**
3. **The U.S. economy continues to be weak.**
4. **The dollar has broken out on the upside (see chart below).**
5. **Commodities have broken down.**
6. **Inflation will become a thing of the past; deflation is just around the corner.**
7. **Commercial and investment banks and Wall Street are broke.**
8. **Personal debts are growing by the day.**
9. **Personal income is slowing.**
10. **Congress is sure to make things worse.**
11. **The only assets worth owning are government bonds.**
