

IT'S THE FED STUPID!

WEB BUZZ 2010.10.19

The Fed is not the answer; the Fed is the problem. From their ivory tower of make-believe worlds they try to control inflation, deflation, asset prices, and human psychology. They are truly the Wizard of Oz as this Kansas firm can attest. Their new idea, which is really an old idea, will not work. Things will only become worse. Let us ask you, have wage and price controls ever worked? Of course not, and that is exactly what they are doing.
